This action was taken, it was said, owing to the attitude of the Ber-lin markers or the oversition. lin workers on the question.

CITY HOSPITAL NEEDS The statements made yesterday at onference between the Hospita Board an unmber of medical men may prove quite a surprise to the general public and perhaps a slock to, the tangapere. It was asserted that the accommodation at the hospital was entirely inadequate to, meet the needs of the community, and its urged that a new wing be built to ac-commodate a bundred patients and that a new surses home 12-sule also be erected. There was not suffer room for the ireatment of maternity cases and it was urged that some-cases and it was urged that some-

This Easter Every Man Will Approach The Clothes Question With a New Perspective

The past few seasons with their gradual rise of prices have brought home the outstanding fact of quality economy. Men and young men have learned emphatically the worthiness and value of intrinsic goodness in the clothes they, wear. They buy according to new standards. They have reached the point when they recognize and appreciate the distinetive advantages of quality clothing and they'll never go back to anything else.

These men and young men, schooled in a better way of clothes buying can come here this Spring with the utmost confidence. We have what they want. We have been even more exacting and particular in making our selections than they expect to be. Our high new stocks illustrate in a practical way their philosophy of good clother.

Young Men's Suits--It's a Young Men's Season

More than ever before, have the manufacturers centred their attenti the young man. Styles have been designed expressly for him. Fabr patterns have been woven, that express a young man's vigor and test

From the country's best makers we have chosen suits to fit young maneds. We've gone the hait to get variety. You'll find the most desir weaves in these groups; the newest colorings. Single and doubte brassatyles; sung, close-fitting models. The chosen is very unusual—and evanit is built up to the particular young man's standard.

The selection is large, both in fabric and color. The finest weaves are resented. Highly skilled tailors have contributed the thorough workman which makes these suits so serviceable and good fitting.

It's Topcoat Time for Men and Young Men

It's quite out of the question to go about without an overcoat. The weather is too chilly. Yet the winter coat is fast becoming very uncomfortable. It's a bit out of place anyway. The top-coat is the thing now-for comfort as well as looks.

We have a lot of them here; all new; new styles and new patterns; just the right weight for Spring wear. Models for men and young men, well tail-ored and excellently finished. Exceedingly good values at—
